RESIDENT'S OFFICE.

OFFICE NOTE.

FILE No. 510 of 1888

In letter dated 16th Novr 1888, Rev^d Haigh, Wesleyan Missionary, applies for a building grant towards the Wesleyan English Girls' School situated in Wickens Road.

~~This School receives~~
from Govt. a
monthly grant in aid
of Rs 60/-
Hf

2. From Mr. Haigh's letter, it will be seen that the Institution has been doing good work & that the accommodation in the present premises has been found to be insufficient. The standard of the School is proposed to be raised, & it is proposed to purchase the "Tamil Chapel" behind the Wesleyan Chapel which has cost the Mission Rs 5,000/- The additions & improvements will come up to Rs 2,000/- extra, & the whole cost is put down at Rs 7,000/-

Rev^d

3. Rev^d Haigh asks for a building
grant of 15 2000/- Before building grants
are made, the ~~Dis~~ Trustees or Managers
of the schools are required to comply
with the ~~provision~~ conditions referred
to in Chap: V of the Code for European
schools, and the Director of Public
Instruction always sees that the
conditions are enforced.

4. The application may be considered
after when it copies through the Director
of Public Instruction. Before addressing
the Resident on the subject he will
settle the preliminaries with the managers
of the school. Moreover he will be able
to let the Resident know of the conditions
of the Institution.

5. If approved, Rev^d Haigh may be
informed, in reply, that he should forward
his application through the Director of
Public Instruction. Draft submitted for
favorable approval.

With letter N^o 103 dated the 14th August 1889, the Inspector of Schools in the Colon Station forwards an application from the Rev^d A. Burnett of the Wesleyan Mission for a grant of Rs 2500 in aid of the purchase of a building for the Wesleyan Mission English Girls' Day School in Dickenson Road, together with the correspondence that has passed between the Inspector & Rev^d Burnett on the ~~school~~ subject.

" The history of the school is given in Pl. N^o 4-8. This school was previously ~~located in the premises occupied by a native school in connection with the native mission of the Wesleyan Society. This native school was turned away to a separation between English & native work of the Society was deemed necessary, but a sum of Rs 5000/- was promised to the native church as compensation for the school building they occupied as a church, & this building was made~~ available

This provision, it is submitted, will imply that the building, receiving a grant should always be utilized for educational purposes, otherwise grant will have a prior lien on it.

(3) Under article 97, no grant can be finally sanctioned until the managers certify that the funds in their hands will when added to the grant, be sufficient to meet all claims & to close the account. On this point, please see para 1 of Art. No. 4.C, where Rev. Burnett states

A sum of Rs 10720 is ~~for~~ sanctioned in the current year's budget for building grants. Of this amount, a sum of Rs 5000/- has been sanctioned to the Literary & Scientific Institute. A sum of Rs 500/- has still been granted to the Baldwin School. - 21 Rest I saw Mr. Burnett, & he affirmed
(a) that the English Church & this school ~~are~~ are now quite distinct from the Society's mission work, and
(b) that the money undoubtedly changed hands.

The necessity for the application for a grant ^{however,} has arisen out of the action of the Society in turning the school out of premises long occupied.

- 22 The view taken by the Society is that the English school & church have already had far more help than they were entitled to from a Society for work amongst Nations. Nevertheless I think the rejection was a harsh & uncon-

23 Mr. Bennett says that there is no hope
of the Society doing anything more
for the school. "Possibly the English
Church may be able to do something,
but that again is now in straits owing
to its severance from the Society."
24 The ultimate effect of the Society's
action is no doubt to force the hands
of Govt in respect of a grant; but ~~not~~
this it may be said that if the school had
stood alone apart from any Society,
it would probably have got a grant long
ago. There seems to be no doubt
that it is one of the oldest & best
schools in the place.
25 If Rest agrees, Mr. Marendam
may be inf^d that the Rest is
disposed to sanction a building
grant if the Insp^r is of opinion
that the school is doing good work,
& that the application fulfils the
conditions ~~for~~ laid down for such
grants. The Insp^r can also

To Sir Harry Prendergast. K.C.B. V.C.
Resident

Sir

I have the honor to bring to your notice the affairs of the Wesleyan English Girls' School, situated in Dickenson Road.

1. The School has been working vigorously and successfully for nearly 25 years, and is at present in a more flourishing condition than ever before. There are now 67 pupils on its rolls, with an average attendance of 60. At present the pupils are prepared for the standard of the Higher Women's Examination, and in this examination they have at various times won much distinction.

2. For some time past the accommodation for the Girls' School, both within and without has been insufficient. We have had no class rooms, and the enlarging classes have had to work in inconvenient proximity to one

another. Moreover, the healthy growth of the school has been hindered by the want of room, and it has been impossible for us to complete the school, as we wish to do, by adding a Matriculation Class and a Music Class.

3. It has therefore been decided to seek for larger accommodation, and for this purpose the Tamil Chapel, situated behind the Wesleyan Chapel, has been offered to us. The building will cost us, as it stands, Rs 5000; but after it has come into our hands it will have to be adapted to our purposes by the building of suitable class rooms, the forming of a play ground, and the erection of needful out-buildings. These additions and improvements are estimated to cost Rs 2000 extra; so that by the time we are in possession we shall have spent Rs 7000.

4. I have the honour therefore to ask that a building grant of Rs 3000 be sanctioned, so as to enable us to complete our scheme adequately to the needs of the school.

SIR,

I have the honor to forward a letter dated the 20th of June 1889 from the Rev. A. Burnett of the Wesleyan Mission applying for a grant of Rs. 2,500 in aid of the purchase of a building for the Wesleyan Mission English Girls' Day School in Dickenson road, together with certain correspondence

2. The history of the school is given in Mr Burnett's letter dated 22nd July (now forwarded). It was opened in 1864, by the resident Wesleyan Missionary in premises previously

previously occupied by a Native school in connection with ^{the} Native Mission, the latter being moved elsewhere. The responsible managers were the Wesleyan Missionary Society; which was (presumably) a society for the conversion of the natives of India. Some time ago according to Mr Burnett, it appears to have struck the Wesleyan Missionary Society, that the cost of maintaining a Missionary for the English Wesleyans in Bangalore and of the English Girls' School was not a legitimate charge on the funds of the society and ^{they therefore} desired a separation to be made between English and Native work. The English church (apparently) wished to have all the buildings in the grounds on which the English Church stands, to themselves, and accordingly turned the Native Congregation out of the building which they had previously occupied as a church and put their English girls' schools into it, agreeing to pay Rs 5,000 to the Native Church as compensation. The building until recently occupied by the school (situated in the same compound) has, I understand, been converted into a "Soldiers' Home". It is to aid the English Church in paying this amount

to the Native Church

amount of Rs 5,000 that the grant is asked for.

3. The arrangement seemed to me by no means clear and I was therefore obliged to write the letters I now forward to obtain precise information. If Government had given any grant in aid towards the purchase ^{or} of building of the original School (now a Soldier's Home) I do not think there could have been any room for doubt as to the impropriety of granting the aid now asked for. The Manager however states that no aid of this kind was ever granted.

4. Even now I do not quite understand the grounds on which the application is based. If the Society is not totally distinct from the English Church, it appears to be selling a building to itself. Or to put it in other words it is devoting, to School purposes one of its own buildings hitherto used as a church and compensating itself for doing so.

5. I asked the Manager as you will see from my letter dated 11th July in what relation the school stood to the Wesleyan Missionary Society. I cannot make out from his reply exactly what the relation

Church in India."

relation is. Mr Burnett's language seems to me to imply that the Wesleyan Missionary Society - identifies itself with the Native Church. The original building in which the school was held was a native school and is said to have been owned by the society. Compensation seems to have paid (or promised to be paid) to the Native Church for it.

Instead of answering the question he says "the relation is the same as that of the Eng. church to the Society." What the latter relation is, he does not say.

If the building belonged to the English School, then the school was entitled to be paid for it. But though it occupied the building (1864-1889) the manager says ^{the building} it all along belonged to the Society. If compensation has been paid to the school for ousting it from this building, the same money might have been paid to the "Society" for the Native Church, for the building is the church, handed over to the school & no aid had been asked for.

7. In brief, the Society appear to have erected a building for school purposes over 30 years ago. They now want it for another purpose and put the school into a building belonging to themselves, ^(presumably) erected by public subscriptions, for a church. Whether this can be called selling, it is for the Resident to decide. Whether any money has actually changed hands is not clear. If it has, the transaction so far as I can see, is equivalent to the Society taking Rs 5,000 out of one pocket and putting it into another.

8. The building itself, - the grondam church -

is so far as I can judge, well built and admirably suited for school purposes

E. Marsden Esq
Inspector of Schools

Bangalore
Sir

A

On behalf of the Committee of the English Girls' Day School, Dickenson Road, I have the honour to make an application for a grant-in-aid towards the cost of the new school-room into which the above school has just been removed. This school was founded some twenty five years ago and with perhaps one exception is the oldest Girls' Day School in the Civil and Military Station. During the whole course of its history it has maintained a high state of efficiency and has had large success in the public examinations. In Dec. 1888 out of seven pupils sent up for the Higher Examination for Women five passed - four of the five being placed in the first class.

From the beginning of its course the school has been carried on in buildings belonging to the Wesleyan Missionary Society. The Society expected a small sum monthly as rent, but it has rarely happened that the state of the school funds would allow this sum to be paid. Last year it was intimated that the Society required the buildings, in which the school was held, for other purposes, and we had to look out for new premises.

We were not altogether sorry to do this as the

The rooms we had occupied were every year becoming more & more inadequate to the ever-increasing needs of the school.

Having thus received notice to quit we succeeded in purchasing from the Daniel Church a commodious & most suitable building formerly used as a place of worship by that Church.

The main room is 60 feet by 35 feet, and in addition to this there are two excellent class rooms. We have paid Rs. 5,000 for the building and have spent Rs 500 on alterations &c. We propose to spend Rs 500 on further improvements and Rs 350 on much-needed furniture.

Total sum actually spent Rs 5,500

Proposed expenditure 850

Total 6,350

Towards this heavy outlay we very earnestly and respectfully ask for a grant of Rs 2,500. The X balance of Rs 3,850 will be raised by voluntary contributions. In pressing this application upon your favourable attention I would specially emphasize the following points:-

I The average no. of pupils on the rolls is 60. This shows that this school meets and supplies a very distinct need in this part of Bangalore. There is every reason to believe that in the more commodious premises just secured the number of pupils will largely increase.

II This school has never had through the whole twenty five years of its existence the smallest help from public funds in the way of a building or furnishing gra

But it gets a Grant of Rs. 60 from J.M.

All the charges under these heads have been met by the Wesleyan Missionary Society. The Society refuses to meet any further charge on this account & that refusal seems perfectly reasonable.

III I would call your attention to the large amount - Rs 3550 - that we propose to raise by voluntary contributions. Surely it speaks volumes for the high esteem in which the school is held that such a sum can be raised for such a purpose.

In conclusion I may say that I shall be happy to afford every facility for a thorough inspection of the building by yourself or by any person that you may may appoint for that purpose. There are few buildings in this station better able to bear a thorough scrutiny and I feel certain that after such an inspection you will feel well able to recommend the British Resident to sanction a grant of at least Rs 2500 - the sum for which I most earnestly ask.

Manager. Wesleyan English Girls' School

Sir,

In acknowledging receipt of your letter of 20th June 1889 applying for a grant of Rs 2500 towards the purchase of a building for the Wesleyan Mission Girls' School & furniture, I have the honour to request that you will be good enough to give me information on the following points

1. You say in para 3 "we have paid for the building Rs 5000 and have spent Rs 500 on alterations". But lower down you say "the balance of Rs 3850 will be raised by subscription". "I beg to call your attention to the large amount we propose to raise by subscription..

If the amount is yet to be raised it is not clear how it can have been — already paid.

2. Whether, as required by article 95(c) - Chap V. the title and trust deeds are in due form. Copies of these do not

documents should be sent forwarded for inspection. If the trust-deed has not (as is probable) been drawn up in accordance with article 96 of the Code it will, I think, be necessary, that a new trust deed be drawn up.

3. It is not clear how the certificate required by article 97 can be furnished by the managers - that the funds ~~in~~ in their names will be sufficient to meet all claims - if these funds have yet to be raised by subscriptions. The proper course would, I think, be for the managers to collect the money and then to apply for the grant.

Sir

In reference to your letter no 6 of dated 1st July 1889 I have the honour to supply the information for which you ask

I when the building in question came into our possession we paid the vendor Rs 5000, and in order to do this secured a loan to that amount. The loan, I may say, is given to us free of interest. In my carelessness not to convey a false impression I used the future tense when speaking of the amount to be raised by voluntary contributions. The facts are these: a part of the sum named has been raised, another part is promised but not paid, while a third part is unsecured. If there is any difficulty in raising the deficiency it is probable that a grant will be made from the funds of the Church with which the school is connected. If the grant of Rs 2500/- for which we ask is sanctioned the Committee will see that the whole of the sum needed is actually raised before they ask for the payment of the grant thus sanctioned & will give a certificate to that effect.

II As we are not working strictly in accordance with the code a trust deed has not been executed. The land upon which our schoolroom stands was purchased by the Wesleyan Missionary

Society some twenty years ago and is still held
in the name of that Society. Under the circum-
stances, which are peculiar, one of two things can
be done. The General Superintendent of the Wesleyan
Mission can convey the schoolhouse & the land
surrounding it to the Committee of Management
or to trustees nominated by them; or he can
execute a legal document, guaranteeing that
the building shall be used in perpetuity for
the purposes of the English girls' Day School.

Will you be good enough to inform me
whether you will accept the latter document
as complying with the spirit of Article 95 &
Chap. V.?

Sir,

With reference to your letter of 20 June 1889, I have the honour to ask for further information regarding the Wes girls day school.

In your letter of 20 June you say the Wes. Mission Society intimated that the building in which the Girls School was held was wanted for other purposes. you say further, "we were not altogether sorry to look out for new premises." Elsewhere you use language which seems to imply that the School is not under the management of the Wesleyan Mission Society, but of a certain Committee. Yet all the changes seem to have been met by the Society.

Will you be good enough to inform me

(1) Whether the School has any and if so what connection with the Wesleyan Mission Society.

2. Who the members of the Committee are,
how they are selected and whether they
have any connection with the Society.

3. In what relation you stand to the
Society, School and Committee and
whether that relation is ex officio or personal.

Sir

C

I have the honour to furnish the information for which you ask in your letter of the 7th inst. In order to make my answers perfectly clear it seems necessary to give a brief resume of the history of ^{the} School and of the present schoolroom.

In 1819 two ministers representing the Wesleyan Missionary Society were sent to Bangalore to found a mission in connection with the Society. In due course they purchased the site on which the present schoolroom, the English Chapel & other buildings stand. They built a house & sundry other small buildings & after some years they erected the present schoolroom. All these were intended for native work. But side by side with the Darnley Church an English congregation grew up. In 1864 the missionary in charge was urged to found an English girls' school. This was done and the school was conducted in the buildings previously used for a native school - the latter being removed to another part of the Cantonment.

In 1863 the large English Chapel was erected at a cost of Rs 28,000 which was chiefly met by public contributions. So matters went on for many years - the English & Darnley work being carried on under one direction & the missionary in charge of the latter living in the house which had been built for him.

A few years ago the Miss. Society decided that

that a complete separation must be made between English & Dravidian work. They also resolved that the cost of maintaining the ministers of the Eng. Church & the schools connected with that Church was not a legitimate charge on the funds of that Society. In view of these circumstances the English Church decided to secure, if possible, possession of the entire premises at East Parade; and after much delay this was effected. We paid to the Tamil Mission as compensation Rs 5000 for the present schoolrooms & Rs 8.500 for the Mission House & adjoining buildings.

It is to assist in the payment of this Rs 5000 (augmented by repairs &c) that we earnestly ask for a grant of Rs 2.500.

1. This school then is related to the Wesleyan Society just as the English Church is related. Financially the school is independent. But as the Wes. Miss. Soc. is the representative of the Wesleyan Church in India the managers of the school are responsible to the Society for the efficient maintenance of the school.
2. There is a committee of three as required by the Code viz Rev. J. Hudson Bell, Rev. W. Sackett and Rev. A. Burnet - the last named being 'corresponding member'. This committee has hitherto been appointed by the Mysore District Com. which is the chief authority of the Wesleyan Church in this Province. In future the committee will be appointed by the Committee of the East Parade Wesleyan Church.
3. Your third question is answered under no 2.
